Description
Family Living and Long-term Investment

This residential asset in the quiet community of Ergates represents a premier opportunity for high-quality family living in a serene suburban environment of the Nicosia district. Falling within the H3 planning zone with a 60% building density and a 35% coverage factor, the property is perfectly suited for the development of a grand custom villa or a spacious family residence that prioritizes privacy, garden space, and architectural distinction. In March 2026, the local real estate market has been fundamentally revitalized by the landmark January 1st tax reform, which fully abolished stamp duty on all new property contracts and removed the Special Defence Contribution on rental income, drastically improving the net position for long-term investors. Furthermore, the 2026 market is bolstered by the latest energy-efficiency grants for new primary residences launched on March 2, 2026, offering significant financial incentives for homeowners incorporating sustainable smart-technologies. The plot's strategic location in an area characterized by tranquility and natural beauty ensures a secure and appreciating asset, a standard of smart investment we have quided for 3 decades of experience.

Description Residential plot for sale in Ergates, Nicosia. This property offers a clear canvas for a high-spec development, benefiting from its position in a peaceful residential atmosphere ideal for those seeking a slower pace of life without sacrificing proximity to the capital. The plot falls within Residential Planning Zone H3 with a building density coefficient of 60% and a coverage coefficient of 35%, allowing for a maximum of 2 floors and a height of 8.30 meters. This residential land benefits from being part of an authentic community, combining a quiet living environment with steady accessibility to the main road networks leading to Nicosia's commercial hubs. The 60% building factor is a strategic advantage for those seeking to build large family homes with extensive outdoor areas, capitalizing on the surging demand for spacious suburban properties in 2026.
